# Inspire

<http://xd.adobe.com>

Inspire is a new bi-monthly web publication from Adobe's Experience Design team that seeks to connect the developer/designer community on the importance of experience when it comes a wide variety of applications.

You can also find content about what's on our mind, what we're working on, problems we're trying to solve, innovations we're excited about, and so on.

Modeled after a magazine format, Inspire will revolve around bi-monthly themes. Content will include videos, daily posts, demos, presentations from MAX and other conferences, as well as XD Brown Bags and interviews with industry leaders.

The theme for the inaugural issue is "New Experiences".

**We want to hear from you too! Please write us: [inspiresuggestions@adobe.com](mailto:inspiresuggestions@adobe.com)**
